

Medicare Quote Engine

FIND THE RIGHT PLAN FOR EVERY CLIENT.

Medicare Quote Engine Overview

The Medicare Quote Engine (MQE) allows agents to quickly and accurately quote and compare senior market health insurance and final expense plans through the Ritter Platform.

Instantly Find a Range of Plans

Discover the MA, MAPD, Med Supp, Part D, and final expense options available to your client.

Make More Informed Decisions

Use our built-in filters, Drug Cost Estimator, and Provider Lookup tool to get more exact quotes.

Compare and Contrast with Ease

Easily view up to three plans side by side and see how their costs and features match up.

Recommend the Best Fit

Feel confident recommending a plan to a client and know exactly what benefits they're getting.

Accurate, Detailed Plan Information

Easily see Medicare and final expense plans in your client's zip code.

When you run a quote, you can trust costs are correct. Results are pulled from the most reliable sources in the market, including the Centers for Medicare & Medicaid Services and CSG Actuarial, an Integrity Company.

Beside plan names, you'll see important plan details that will influence your recommendation and your client's decision within the results, giving you the big picture from the start.

Featured details include:

Rating

LIS

Deductible

Copays

Premium

Drug Costs

Tailored Search Results

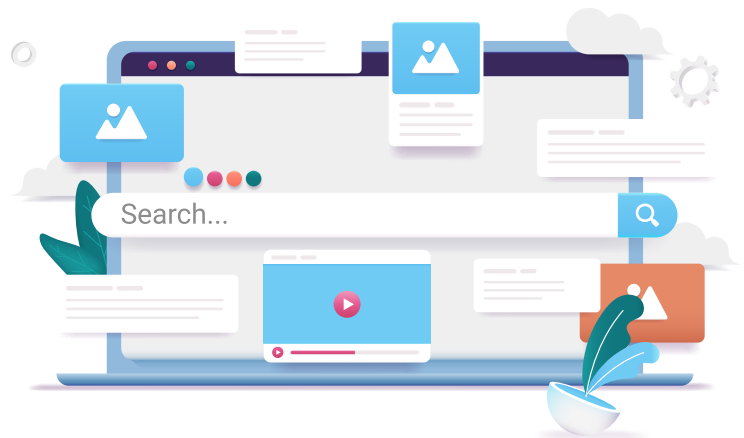

Save time finding plans that fit your client's needs with prefilled searches and filters.

While you can run quotes for any client — with or without a Shared Client Record in the Platform — starting a quote in a Shared Client Record automatically uses the details in their record for faster personalized quoting.

Further streamline your search by filtering results by your client's preferred carrier and plan type.

Quotes factor in:

- Zip code
- County
- Age
- Gender
- Marital status
- Smoking/Non-Smoking

Provider Lookup Tool

Forget about paging through provider directories — we have your one-stop solution!

We know that an important part of your client's care is a trusted doctor. When running an MA or MAPD quote from a Shared Client Record with designated providers, we give you tailored results in seconds! Your client gets to keep their doctor, and you get to say goodbye to digging for information.

Have a client who wants to know local doctors, hospitals, or facilities and their accepted plans? Use the Provider Lookup tool to quickly discover their options. This data is updated frequently by our tech partner, Zelis Healthcare, so you can trust the information is current and correct.

Drug Cost Estimator

Get a close estimate of your client's drug costs in every available MAPD or PDP.

Many Medicare beneficiaries take prescription medications that are vital to their health, but they rely on insurance to make them affordable and within reach. As long as your client's meds are listed in their Shared Client Record and you start a quote from there, we'll show you their estimated drug costs for each plan result through data from our partner, Sunfire. Stop second-guessing the most budget-friendly option when your client's quote includes this expected cost up-front!

Drug quotes factor in:

- Individual drug pricing
- Preferred pharmacy data
- Plan's premium & deductible
- Drug copays & responsibilities
- Monthly & yearly costs
- Mail order & retail costs
